## About a Director of COEUR entertainment

### *My professional path*

Hello! My name is Syuzanne, and from a young age I realized that I was going to devote my life to education and teaching. As my career progressed, I realized that what I love most is sharing knowledge with others. Now I devote all my time to students. I believe that in the 21st century we must teach to explore, ask questions and learn new skills. I salute the curiosity of my students and proudly watch them grow and improve. If you are interested in my courses and methodology, my doors are always open. All lectures are composed according to my personal methodology. The lecture plan for the whole day on our website is the same as I had when I studied.
